*Landscaping funds request was necessary this year due to school construction that continued until the end of summer which did not allow for the typical grounds maintenance to occur. Typically, One Community Church performs community service to clean-up grounds.

In the future, Mr. Carter would like a budget line item for purchasing 25-30 yards of mulch. Volunteers can help to spread the mulch before the school year.

Principal's Report: Robert Carter

- For this school year, there have been 6 COVID positive students and 25 quarantined close contacts. Families are notified if you're a close contact, but not if there's a COVID case in the classroom.
- The school uses a contact tracing diagram and checks bus, classroom, and lunch contacts. Bus tapes take 2-3 days to receive.
- School Improvement Plan – Academics, social/emotional, PBIS. All students should make progress as measured by MAP grades 2-5. PALS, DRA, and ESGI for grades K-1
- More growth needs to happen
- Students need to grow in 70% percentile for 3 years to make-up for quarantine (18 months)
- Parents can have input into SIP. Latest survey results indicate that bullying is at an all time low (98%). Survey occurs in March.
- Parent teacher conference time – sign-up!
- Volunteers and visitors – school is still limiting volunteers, however Foxcroft requested to volunteer. All Foxcroft students are vaccinated and masked.
- New hires/vacancies – the school's goal is to keep morale high, however, it is difficult when staffing isn't at 100%. As a small school, Banneker feels the pressure of staffing shortages more acutely. Need a site-based sub and cafeteria monitor.
- Added SEARCH teacher 2 days per week. Social Worker is also at Banneker more frequently.

- Banneker teachers and staff are maximizing every square inch within the school, but with increased growth, more building space is needed. Engineers have visited, but Banneker is still uncertain about the results of the reviews. Banneker's 75th anniversary is next year.
- The school needs more representation and involvement from elected officials. Parents can help by reaching out to them: Ian Serotkin (LCSB) and Tony Buffington (BoS)

Teacher's Report – Joyce Shanholtzer

- Morale – staff have said that it's a pleasant place to work. Teachers are positive.
- Advisory council – Include advisory council the November PTO meeting agenda.
